

Schedule 40 PVC Duct Coupling

For use in Exposed & Underground Applications

5 Sizes to Choose From

Solid Mating Guaranteed

Resists Extreme Temperature Fluctuations

Easily Installs in Seconds

Cal Am offers schedule 40 Duct Coupling in five popular sizes ranging from two to six inches in diameter and manufactured in accordance to application requirements listed in NEC Article 347 and 370 UL514, Mil-C-23571, Federal Specification WC 1094, ASTM F513-89, and NEMA Standards.

Warranted to be free from manufactured defects in material and workmanship, all of our PVC connectors are produced from the finest grades of virgin, high-impact Polyvinyl Chloride using state-of-the-art manufacturing techniques. Used to pair lengths of PVC conduit pipe in a variety of applications, this high-end fitting consists of two IPS Sockets with a firm, positive, center-stop. When both pieces of conduit pipe are seated firmly at the stopped position, this fitting provides for the solid, unyielding union of the conduit that you demand.

As with all Cal Am fittings, you will find that these couplings offer superior lot-to-lot consistency, a smooth interior wall for easy installation and a durable, warp resistant design that you can rely upon in the field time and time again.

For over 25 years, Cal Am has been providing the Power and Telecommunications Industry with the highest quality conduit fittings and supports. For more information on other fine Cal Am products please call or visit our website at www.calammfg.com.

SCHEDULE 40 PVC DUCT COUPLING

SIZE	CATALOG NUMBER	UNIT	QTY PER CASE	CASE DIMENSIONS	CASE WEIGHT (LBS)
